FitLine Activize Oxyplus

"I have been taking Activize Oxyplus for a year and I love the taste. Since I no longer like coffee, I drink Activize every morning and feel fitter right away. If I have plans for the evening, I take a drink ahead of time."

Evi Sennrich

"I have been taking Activize OxyPlus for several months and am no longer stressed and tired at work. Our son Philip has been drinking Activize for seven months. He participates in fun runs and runs the 10km distance in less than one hour. He is also doing better in school with his concentration and as a result his grades."

Annette S.

"I work three shifts as logistician. Until recently I had absolutely no energy and was always tired. That changed with FitLine Activize Oxyplus. Result: A lot more energy and power."

Christian Anzinger, Mamming, Germany

"By drinking Activize, I experience high concentration and greater ability to perform. Since 2007 I've been filling up with energy that way to start my day. I no longer want to do without this fantastic product."

Rainer Haack from Teisendorf, Germany

"Drinking Activize before an agility circuit increases concentration and I run without any mistakes more often than I used to. The team work between human and dog has improved."

Bettina Lämmle from Switzerland

"The fantastic FitLine Activize Oxyplus has gotten me ahead so much with regard to condition and my mid-day low is gone. "

Dimitri Grad from Celle, Germany
